DENSITY AND OPEN SPACE RATIOS

BASE ZONING DISTRICT	= (P - 1) B - 3
MAXIMUM DENSITY ALLOWED	= N/A
PROPOSED DENSITY	= N/A
MINIMUM REQUIRED PERCENTAGE OF OPEN SPACE	= 20%
PROPOSED PERCENTAGE OF OPEN SPACE	= 36%
TOTAL SPACE	= 5.228 ACRES
OCCUPIED SPACE	
2.230 ACRES	DRIVES, PARKING PAVEMENT, AND SIDEWALKS.
1.098 ACRES	BUILDING SLABS
3.328 ACRES	TOTAL
NET OPEN SPACE	= 1.900 ACRES
OPEN SPACE RATIO	= 0.36

ENVIRONMENTAL RECOMMENDATIONS
The following are recommendations put forth to address the environmental concerns raised by the construction which will follow this proposed re-zoning on the Edwards Aquifer Recharge Zone:

1. Prior to the release of any building permits the owner/operator shall obtain a Letter Of Certification from the Watershed Protection and Management Department of the San Antonio Water System.
2. Prior to the release of any building permits for commercial developments, the following shall be submitted to the Aquifer Studies Division of the San Antonio Water System:
A. A Water Pollution Abatement Plan shall be submitted for the development within the area being considered for re-zoning.
B. A set of site specific plans which must have a signed Engineers Seal from the State of Texas.
C. A letter from the Texas Natural Resource Conservation Commission approving the Water Pollution Abatement Plan.
D. A copy of the approved Water Pollution Abatement Plan.
3. The land uses within the commercial zoned areas shall be in conformance with the table of permitted uses at the time the re-zoning is approved. Should a proposed use be listed as requiring special City Council approval, the owner/operator shall apply for re-zoning for that particular use at that site. If the land use is listed as prohibited, that land use will not be permitted on that site.
4. All stormwater run-off from commercial sites shall be directed to a stormwater abatement system which shall be approved by the San Antonio Water System Aquifer Studies Division staff prior to release of building permits.
5. The responsible party for the stormwater pollution abatement structure shall carry out four (4) sampling events of stormwater runoff on an annual basis. Both the influent and effluent at the approved pollution abatement structure shall be tested for Total Recoverable Petroleum Hydrocarbons (TRPH) by EPA Method 418.1 and Total Suspended Solids (TSS) by EPA Method 160.2 and the sampling events shall be at least four (4) weeks apart. Dependent on the final landscape design and amount of landscaping for the development, testing for Total Phosphorus (TP) by EPA Method 365.4 may be required at the discretion of the Aquifer Studies Division staff. Should the methodology listed for each analysis change, then the owner/operator shall use the most current EPA accepted methodology. Aquifer Studies Division staff shall be notified prior to sample collection and analytical tests results shall be provided to San Antonio Water System Aquifer Studies Division.
6. That only a minimal amount of pesticides, herbicides, or fertilizers needed for landscape maintenance shall be used. Landscaped areas shall be sensitive to minimizing water needs (i.e. use of native plants).
7. Each individual tenant should submit a list of chemicals/materials which includes policies for storage, handling and disposal prior to the initiation of operations. The storage, handling, use and disposal of all over the counter hazardous materials within this development shall be consistent with the labeling of those materials. Failure to comply with the label warnings may constitute a violation of Federal law.
8. That the City of San Antonio shall inspect all future construction of service laterals and sewer mains for proper construction according to State and City Regulations and Code.
9. That the Aquifer Studies Division staff shall have the authority to inspect the site to ensure that the approved recommendations are being strictly adhered to during and after construction of the project.
10. If any solution openings, caves, sinkholes, or wells are found during the excavation, construction, or blasting, the developer shall notify the Texas Natural Resource Conservation Commission at (210) 490-3096 and the Aquifer Studies Division of the San Antonio Water System at (210) 704-7303.

NOTES:

1. SIGHT LINES SHALL BE OBSERVED, ALONG PAVING LINES, AS SHOWN. WITHIN CLEAR VISION AREA, NO STRUCTURE, FENCE OR LANDSCAPING SHALL BE PLACED AS TO OBSTRUCT THE LINE OF SIGHT WITHIN THE TRIANGLE BETWEEN THREE (3) FEET AND NINE (9) FEET ABOVE THE ROADWAY SURFACE.
2. PEDESTRIAN ACCESS WILL BE PROVIDED FROM PARKING FACILITIES TO EACH BUILDING, SIDEWALKS WILL BE A MINIMUM OF 3' WIDE.
3. ALL DRIVES/PARKING WITHIN DEVELOPMENT ARE PRIVATE. THE PRIVATE DRIVES/PARKING ARE ALSO DRAINAGE, WATER, SANITARY SEWER, ELECTRICAL, GAS, TELEPHONE, CABLE T.V. EASEMENTS, INGRESS/EGRESS. (LOT 18, BLOCK 1).

CLEAR VISION AREA

ENTRY/EXITS COMPLY WITH THE CLEAR VISION AREA REQUIREMENTS OF SECTION 35-3339 OF THE UNIFIED DEVELOPMENT CODE.
CURB LENGTHS: EXHIBIT G, LEFT-EQUATION A RIGHT-EQUATION D
 $L=13 (ISD)/(134-[W/2]+K_A)-4 = 108 \text{ FT.}$
 $R=0.65 (ISD) - (W/2+K_A) = 390 \text{ FT.}$
 $ISD(1)=300 \text{ FT. } W=30 \text{ FT. } K_A=7 \text{ } K_D=2$
 $ISD(2)=625 \text{ FT.}$

- TOTAL ACREAGE 5.228 ACRES
- OFF STREET PARKING (200 SPACES)
OFF STREET PARKING SPACES PROVIDED WILL FOLLOW ONE SPACE PER 300 SQ.FT. FOR PROFESSIONAL OFFICES AND ONE SPACE PER 200 SQ. FT. FOR CLINICS. ALL MODIFIED AS REQUIRED TO SAVE EXISTING TREES.
